PROFESSIONAL SUMMARY

Versatile and detail-oriented Senior Developer with 7+ years of hands-on experience across mobile, frontend, backend, and cybersecurity domains. Adept at delivering high-quality solutions using modern web and mobile technologies. Collaborative, fast-learning, and solution-driven professional committed to building efficient, scalable systems.

TECHNICAL SKILLS

Languages:	JavaScript, TypeScript, HTML, CSS Proficiency
Frameworks & Libraries:	React.js, React Native, Angular, Next.js, Node.js, Express.js
Relational Databases:	MySQL, PostgreSQL
Non-Relational DBs:	MongoDB, Firebase Firestore / Realtime Database
Cloud & DevOps:	AWS (Amazon Web Services), Google Cloud Platform (GCP), Firebase, Docker, CI/CD Pipelines
Architecture & Design:	System Design, Software Architecture, Responsive Web Design, Mobile Development, API Development, RESTful APIs
Methodologies:	Agile Development, Secure Coding, Code Optimization, Debugging, Version Control, Unit Testing

WORK EXPERIENCE

Senior Software Engineer – Network International

08/2022 – Present | Amman, Jordan

- **Frontend & Backend Development:** Directed React and React Native teams to deliver fintech web and mobile platforms for bank cardholder management and onboarding, utilizing Node.js and Express for scalable backend services.
- **Built Scalable Onboarding Systems:** Engineered an issuer portal that reduced tenant configuration time from weeks to mere hours.
- **Architected Secure Cardholder Platforms:** Developed the core web/mobile application for managing cards and transfers, which was later white-labeled for Ora Bank.
- **Integrated Modern Fintech Features:** Spearheaded the integration of secure payment APIs (including NFC and contactless technologies) and designed reusable UI components.
- **Drove Performance & Stability:** Optimized full-stack codebases and established robust testing protocols to ensure system reliability, lower operational costs, and improve speed.

Software Engineer – Tahaluf Al-Emarat

08/2021 – 08/2022

- **Enterprise Dashboards:** Mastered Angular to build enterprise-grade administrative dashboards, creating central management hubs for the Velox Taxi and ComfiPark ecosystems to enable real-time data control and business analytics.
- **Mobile Development:** Developed companion cross-platform mobile applications with React Native, ensuring a seamless and responsive user experience for drivers, passengers, and parking users.
- **Architecture & Optimization:** Architected and optimized the full application stack, significantly improving system responsiveness, scalability, and reliability across all platforms.
- **DevOps & Testing:** Implemented robust testing and DevOps practices across Angular and React Native codebases, enhancing overall code quality and accelerating release cycles.
- **Product Strategy:** Drove product strategy by analyzing cross-platform metrics and user feedback to prioritize and implement high-impact features.

Software Engineer – PTTCT

01/2020 – 03/2021

- **Component Development:** Developed and maintained scalable frontend components using Angular and React, directly improving application reliability and reducing system downtime.
- **Authentication & Security:** Implemented secure authentication flows and access controls, enhancing application security and protecting sensitive user data.
- **Performance Tuning:** Optimized frontend performance by refining algorithms and state management, decreasing resource usage and improving responsiveness.

Software Developer – Estarta LLC

01/2019 – 01/2020

- **Feature & API Development:** Developed scalable React features and Node.js APIs to improve responsiveness and user satisfaction.
- **Quality Assurance:** Tested and debugged full-stack code to ensure system stability and reduce downtime.
- **Cross-Functional Collaboration:** Collaborated across teams to align technical solutions with business goals.

PROJECTS

- **Fintech & Enterprise Platforms:** Issuer Onboarding Platform, Ora Bank Cardholder, ComfiPark
- **Mobile & Web Applications:** Attendance App, Cupify, LN Loyalty, Tap IQ, TheNod, Velox Taxi, VIPScanner, Yoni

EDUCATION

Bachelor's Degree in Network Engineering and Security

03/2013 – 08/2018

Jordan University of Science and Technology, Jordan
